Mahadhan 10:26:26 – Complex NPK Fertiliser

Mahadhan 10:26:26

i) What nutrients does it contain?

- Nitrogen, Phosphorus, Potassium

ii) What is it & how does it help in crop nutrition?

- Higher nutrient content amongst the NPK range of fertilizers products
- Ideal for basal application. Suitable for sugarcane as well as oil seed and pulse crops. The lower concentration of nitrogen present in ammoniacal helps in keeping the crops green for the longer period of the time

iii) How does it benefit farmers?

- Phosphorus in completely water soluble form helps in increasing quality and yield of the crops
- Provides economy in transportation

iv) What are the crops in which farmers could use it?

- Sugarcane, Cotton, Vegetables.
