MahadhanMahapower (24:24:0) – Nitro Phosphate Fertiliser

Mahadhan Power (24:24:0) - Nitro Phosphate Fertilizer

- ❖ What nutrients does it contain?
 - Nitrogen (N) & Phosphorus (P)
- ❖ What is it & how does it help in crop nutrition?
 - Contains Nitrogen in both Nitrate and Ammonical forms. Hence, prolonged availability of Nitrogen to the crop
 - Prilled Fertilizer, hence adulteration impossible
 - High Water Soluble Phosphate helps in faster root development
 - Acidic in nature- Improves pH of soil, especially in alkaline areas
- ❖ How does it benefit farmers?
 - Excellent root & shoot development
 - Makes crops capable of withstanding/escaping drought
 - Crops remains green for longer time
 - Higher crop yields and improved quality of crop produce
- ❖ What are the crops in which farmers could use it?
 - All cereals, pulses, oil seed crops, fruit crops, and vegetable crops
